

## TODAY'S POSTING - MONDAY, MAY 23, 2022

Dear fellow Colony owners,

As of our most recent Board meeting on Friday, May 20, 2022, but subject to change depending on current improved circumstances continuing, we are pleased to alert all owners that you no longer need to bring your own towels/linens. By carefully managing her check-ins and check-outs and some strategic hiring in the cleaning area, your General Manager, Monique Roberts and her staff, have been able to keep up with laundry and are giving it their best shot to continue. Please do us and yourselves a favor and check the Colony website before your week's vacation to doublecheck for any updates (we will post an update if anything changes). We are cautiously optimistic but we are entering the "summer season". So let's take improvements, significant as they are, one time-share week at a time. We especially appreciate all the efforts that residents made to pitch in and help. It was tremendously appreciated. We could not be here after the last 2 years without our AWESOME OWNERS!!! Thank you.

I do want to give special thanx and acknowledgement to owners who have gone the extra mile in helping to leave their units spotless for the next Colony family coming in. We HAVE NOTICED and thank you!! These selfless actions are a big help to Monique (this was her comment at our Board meeting and she sends a big "Thank You") and her team, gives them a head start and a leg up, so please, we ask you to keep it up. Thank you.

I will keep you informed.

Respectfully Submitted,

Dick Denecker  
President of the Board
